IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849 in the "Boston Daily Times," and various other newspapers in the United States by James G. Wilson, Esq., the owner of the Woodworth Patent, shortly after I had advertised my PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE, throughout the United States.
"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of Mr. Woodbury's Stationary Planing Machines, designed to be palmed off upon a credulous public, [illegible] their true worth. I would state for the information of the enquirer, that they will find substantially the machine now offered by several pretenders, inventors described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kager, some sixteen years since, and also one put up by Albert Richards of West Troy, N. Y., and abandoned about the same time. It ought to suffice the public to know that after two such attempts, experiments upon these machines, not one in use is of any value for the purposes contemplated.
"I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON.
May 19, 1849. Philadelphia."
I do state that any person ever saw or heard of such a machine, in use, until I invented the same. Said machine was operated in the month of August, 1848, and no machine before that could do so much work, and do as well as mine. For the above advertisement and in order that the public may be assured that I mean what I say, I will offer to place ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will [illegible] and [illegible] more work in a given time [illegible] than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border Street, East Boston, Mass., or at such other place as may be convenient to both parties.
JOSEPH P. WOODBURY,
August 21, 1851. East Boston, Mass.

JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 12 East Water st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a superior appearance and flavor, and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor in washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works, leaving them perfectly dry, and not liable to rust.
Directions for use are printed on each package.

WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of
Wines, Liquors & Cigars,
Purchased by himself in the City of New York, within the last month FOR CASH, at prices from 25 to 33 per cent less than from me paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands, on the contrary, I saw all my goods sealed for shipping and turned out of the CUSTOM HOUSE, therefore, I can say with confidence, that my Liquors are PURE.
I have marked my Goods very low, and have therefore adopted the
ONE PRICE SYSTEM,
and no deviation from the price first asked, giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.
Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete and my stock of LIQUORS comprises over 1000 origina[l] Casks of the most approved brands of

FROM OUR NEW YORK CORRESPONDENT.

New York, January 26, 1852

The most scandalous trial yet known to our annals, that of the Forrests, has at length terminated and as I believe to the universal satisfaction of the community in the acquittal of the wife and condemnation of the husband But the wide publicity given by the newspapers, to the details of the trial and the abomination of those details have produced evils it may not be doubted of which the future will testify The Judge on recapitulating and commenting upon the evidence, expressed a hope which I trust will be realized that the Legislature may pass a law authorizing Courts of Justice in like cases to this to forbid the publication of the testimony, at least pending the investigation I would have it more stringent and forbid the publication altogether, on the same ground and for the same considerations that indecent books and pictures are prohibited But if from reasons which do not occur to me, there should be valid objections to absolute prohibition of the evidence and pleadings in such a case—there can be none against prohibiting the daily publication of nauseous details while the case is in progress and lasting, as this did, thro' a whole month It certainly can answer no good end of justice, that each morning, in every family, should be introduced, for thirty days consecutively the filthiest scenes of real, or imputed debauchery—this, surely, may and should be forbidden But I leave a disgusting theme

In political movements there seems little animation, and even less certainty of direction, or issue, on the part of the so-called "democracy" Kossuth's appearance at Washington seems to have complicated difficulties, already more than enough, existing among the would-be leaders of the party and aspirants to the Presidency His great cause and great influence over the popular mind in the free States seemed to make it advisable for candidates to identify themselves with him—but on the other hand the distaste with which, in the Slave holding portion of the United States the cause and movements of Kossuth are regarded, present a danger to those who, disregarding and rather favoring and patronizing Slavery at home might yet desire to make political capital out of professions of love of freedom and indignation against oppression in Hungary Gen Cass and Senator Douglas have both damaged themselves not a little in Southern estimation by *cottoning* too much to Kossuth, and yet have not gone far enough it may be to conciliate the good will of the zealous friends of that remarkable man and of the ultras for "intervention against intervention" We are yet to see the effect of the great orator's tour in the West At our latest accounts he was storm stayed in Pittsburg When he descends the Ohio old Ohio he will not "set the river on fire," I am taken the case very much if he do not set on fire the population on its Northern Shore Meantime our advices from Europe leave little hope for free principles there The *Absolutism* of the second Napoleon is bolder and more complete than that of the first and the prophecy is fulfilled—Europe is Cossack! We do not yet know, I think what England means or hopes in respect of affairs in France or on the Continent Some explain the fall of Lord Palmerston—as a minister the impersonation of the true John Bull, and airing his prejudice—because of his approval of the French usurpation while others ascribe it to his too favorable sympathy with the Hungarian struggle and others again put it down to the account of our difficulties about *Nicaragua*, which it is said Lord Palmerston encouraged, while his Colleagues desire, at all events, to be well with the U S We shall not probably know the secret till the meeting of the British Parliament Meantime it seems ascertained that the insolent act of a petty naval commander, in firing upon the American Steamer *Prometheus* in neutral waters will be disavowed and atoned for, and I rejoice at this for I have a thorough conviction that it is for the interest of good government and of Freedom everywhere that there should be a thorough good understanding and concert of action between England and the U S Together we may defy the world and we alone, of all the nations, for a long time at least shall according to present appearances, be able to uphold free institutions

Europe is to be governed perhaps to be partitioned among five or six despots—bound in one common league of defence and aggression against all peoples not included within their scope of influence and direction Freedom here and free institutions are and must be the constant terror of men who rule only by the sword, and whenever they feel strong enough, or desperate enough, they may turn that sword upon us With France, sooner and more probably than with any other power may collision come If the league of Europe be despotic, there can be no place nor play for French genius on the Continent and the stimulus of glory so needful to the French people, and quite as needful, possibly, to the maintenance of the usurper's throne, will be wanting But on the sea the phantom may be chased, and in the great Pacific the Sandwich Islands, which American has mainly civilized and christianized so far as they are civilized and christianized will afford the pretext and the scenes of maritime operations We could not, in justice to our own past connections with these Islands and to our duty as the chief power on the American Continents, permit France or any other European nation to appropriate these Islands even if we did not possess California, but with that State as part of the United States, the duty of protecting the independent existence of these Islands is imperative upon us, or if found incapable of independent existence, that of annexing them to the U S This seems to me the ground where France and the U S may, I had almost said *will* come into collision yet assuredly at present we are little prepared for such a collision France far outnumbers us in War-steamers and War-ships and altho' I have a conviction that with anything like equal force the victory must be ours in any contest with that power, I would urge preparations for increasing our Steam Navy

After an almost unparalleled spell of cold weather we have for the last two days, warm bright sunshine before which the snow disappears rapidly We can let it go without regret

Much "Efficiency"—Speaker Shafter in his choice of the Committees of the Assembly placed the only practical *farmer* from Waukesha County on the *Judiciary* Committee and *a lawyer* from the same county on the *Agricultural* Committee The 's discrimination and efficiency!—*Commercial*

Flat burglary since! The Speaker's assumption that a Lawyer could know anything about Agriculture or a Farmer anything about Law is quite intolerable Possibly, indeed, it may have occurred to him that the plain common sense of a Farmer would mould well with the keen logic and nice distinctions of the Lawyer or that the skill and experience of a Lawyer would be useful auxiliaries in giving shape to the practical views and suggestions of the Farmer But certainly no such idea ever bothered the *Commercial*

EDITORIAL CORRESPONDENCE OF THE SENTINEL

Madison Feb 3

Those of us who hail from Milwaukee are gratified to learn that the people of that city have voted by a large majority their approbation of the new charter We hope to see it pass both Houses of the Legislature with at least as large a majority comparatively I see no reason to anticipate any delay in the premises.

You will have noticed sundry allusions in the Madison papers relative to the sad condition of some of the liquor establishments here, resulting from the change in the character of the Legislature I take great pleasure in bearing my feeble testimony to the truth of the allusions referred to It is a fact, and a gratifying fact, that the present Legislature is such a one as affords a greatly reduced rate of income to the, perhaps, highly respectable caterers to the indulgences of humanity

The bill to pay Robert Bonham for guarding state prisoners 365 nights, by agreement with Sheriff White, is before the committee on claims, and will be examined There are some doubts as to its correctness, altho' it has received the sanction of the Board of Supervisors

The *Argus* here is in a very serious state of agitation concerning the delays of legislation in the House, while it thinks that the Senate in which its political friends have a majority, is doing things up promptly I think that nothing will be gained by assertions of the kind, and it is quite probable that a counter-assertion—to the effect that the House has passed as many, and as important bills, during its session thus far, as any previous Assembly—will go quite as far, and be a good deal more true Numerous important bills are being prepared in committee, and the attempt will be made to make them as complete as possible, in order that no delays may be the result of the presentation of bills crude, incoherent and undigested

The proprietors of the *Argus* have prepared a *chart*, containing various items of State and national statistics The Senate voted itself a large number of copies, of the document for distribution, and this morning Mr Monroe offered a resolution to purchase 2000 copies for the House, provided the publishers would relinquish a subscription made by many of the members. It would have been all well enough if the House had voted upon the question at once but it took the course of riding the resolution with numerous amendments, a part of which I sent by the telegraph report of the doings of the day There were many others proposed and lost When the vote came finally up on the original resolution, the Speaker stated that in as much as those who had subscribed for copies were *interested* in the appropriation, they could not be allowed to vote Accordingly, on calling the ayes and noes, some 30 members announced themselves interested, and although there were 10 ayes and 18 *nays* voting, yet this was not a quorum —The resolution was laid upon the table finally —You should have seen the blank faces when the Speaker announced the restriction

A proposition was sent in from the Argus office to do a portion of the public printing It would be very desirable to have the printing expedited, but it don't seem clear to me that any of it can be taken from the contractor, except through a failure of his contract, legally declared

That highly interesting and novel question concerning the location of the County seat of Washington County, came up this morning on the reports of the delegation from that County, to whom the Grafton bill had been referred Messrs Maxon, Weil, and Staats, concurred in reporting a bill to remove the County seat to West Bend and then have the people vote yes or nays as to its remaining there Messrs Johnson and Powers are the first for Grafton, the second for Port Washington The House listened with interest to speeches from Mr Johnson on one side, and Messrs Maxon and Weil on the other—Mr Weil merely urging immediate action on the subject —Then Col Bothun, as an old stager in the warfare of our Washington County friends who has—

> "Suffered more for their sakes, more than the villanous inconstancy of man's disposition is able to bear,

made a speech, detailing at length the tribulations under which successive legislatures have suffered, and the conflicts in which himself had often "fought, and bled, and died" He was in favor of settling the question at once by vote of the Legislature

The members have all been talked to on this question in all the corners of all rooms, and of all streets, and across all tables. I should not be surprised if it happens that some of them have in their confusion of mind promised their aid to all parties You recollect, doubtless, the sad state of mind in which that highly estimable and reliable go-between, Dame Quickly, found herself when she had promised her valuable services to the various suitors for the hand of Mistress Anne Page? Says she,—

> "I would my master (doctor Caius) had Mistress Anne or I would master Slender had her or, in sooth I would master Fenton had her I will do what I can for all of them for I have promised, and I'll be as good as my word

If there are not members who would be glad to promise to vote the county seat to the top of that one of the Rocky Mountains whence Mr Polk set "that stone a-rolling"—I am mistaken

The whole afternoon was spent upon this "*monstr'-horrendum'-inform'-ingens*" I hope that the House will apply to it the remainder of the Virgilian line and "take its eye out"

Senate not in session in the afternoon

P S I see that one of my letters speaks of an *eleven* million loan for the R R & V R R Co having failed or words which may be so understood Of course Mr Walker's loan of eleven millions, which he didn't get, for the Illinois road is referred to

Mr Smith tells me that a banking house in England opened a stock book for *his* loan with a large sum, and is under contract to get others to fill it up to the amount required, or to fill it out on its own responsibility *He* thinks and says that the said house is so bound by its contract that the money must come Others think and say differently I certainly hope that the Company *will* get all the loan it asks for, and use it promptly and efficiently But I dont believe in giving away some millions of acres of public lands for its benefit, or that of any other company for an indefinite number of years. Bad News from Liberia—The Colonization Board at Washington have received despatches from President Roberts by way of England, giving the unpleasant intelligence that an attack had been made on Fishtown by a native chief Fishtown is on the Bassa Cove, about four miles from Grand Bassa, and about the same distance from Edina The following is an extract from President Roberts's letter —

"Government House
Monrovia, Nov 6

A report has just reached here that Grando yesterday morning made an attack upon the new settlement at Fishtown set fire to the village and killed eight or ten settlers I have not yet learned the particulars That the town has been attacked and burned I have no doubt but that the number of lives lost has been exaggerated we have good reason to believe We are, however, in a state of great excitement"

Buffalo Mutual Insurance Company —The Buffalo *Express* of the 26th instant thus corrects a misapprehension in regard to one of the Insurance Companies in that city

It is going the rounds of newspapers in all directions that "the Mutual Insurance Company of Buffalo, has failed—and made an assignment"—This is wrong The Merchants' Mutual Insurance Company of Buffalo, has been compelled on account of heavy losses, to make an assignment —The two companies are confounded "The Mutual Insurance Company of Buffalo," now in its 9th year of existence, is in a sound, flourishing condition, with an accumulated fund, liable for losses, of over $160,000

Maine —The Whig members of the Maine Legislature have expressed an earnest preference that Gen Winfield Scott, should be the next Whig Candidate for President, and Gov Jas C Jones, of Tennessee, for Vice President Messrs Carter, Chapman, Smith, Farley and Norcross were appointed a Committee to embody the sentiments of the meeting in resolutions to be presented at a future meeting

HOME INSURANCE COMPANIES

Messrs Editors —From the fact of our hearing monthly of the failure of different Insurance Companies who have agents in our city and with whom many of our citizens effect insurance which in the end results to their loss of the amount insured, or at least of a part of the premium money paid my attention has been drawn to the practicability of our looking more closely to the advantages of insuring in home companies.

It is certainly no object for any person to effect insurance in an office where they run the risk of losing their insurance, on account of its inability, and we certainly do run great risks as our experience shows in taking out policies from companies we know nothing of and which are located in another state This point being granted it carries the persuasion with it that we should patronize home companies it is every way right as we have the means of knowing all about them, and can aid in keeping them safe

Besides the feeling which ought to exist in the minds of all good citizens to give their support *first* to any institution located in their midst which was deserving of it there is still another point to be gained that of keeping all the money we can from going out of the state The amount of premiums which would naturally be paid by our merchants and others for Fire and Marine insurances in the aggregate would amount to a large sum, and if retained in our state instead of being sent abroad would add so much capital to it

There are also other good reasons for patronizing home companies Among the number is the fact, that losses can be adjusted at the point of loss more satisfactorily to all parties than with foreign companies or in case of a disagreement between the parties concerned, and the law has to be resorted to for a final settlement the insured stands on a far better footing than he would if contesting a claim in another State where the extra expenses to be incurred might swallow up the amount at issue

There certainly is sufficient responsibility among our merchants from which to form the capital of a good insurance company, or to support any now in existence and enough business to be derived from the produce sent East and the merchandize coming West together with good fire risks, to make a well conducted institution a paying concern

The great points for ensuring the success of a company, are first (as a matter of course) to have it well managed second, to have the rates of premiums so arranged that in the end they will more than counterbalance the losses and third for the company to do all the business they possibly can do and do prudently

Neither home nor foreign companies can long remain permanent if the rates of insurance are too low, and nothing should awaken our suspicions sooner, as to the responsibility of a company, than to have their representatives offer to take risks below what experience has taught they should do

Considering this subject worthy the attention of all who have insurance to effect I have taken the liberty of expressing my views in relation to it

Swamp Lands.

The following communication from C H G H Slaughter to His Excellency the Governor and by him yesterday transmitted to the Assembly cannot fail to arrest public attention It seems that the selections are in such shape that not attention can be paid to them—and that the expenditure of some $1 300 for plats at $1 75 each was wholly unnecessary as it was the duty of the Secretary of the Interior to furnish them on application Measures should be at once taken to insure a legal selection of these lands and, also, to recover back the money expended without warrant or authority

Mineral Point Jan 26 1852

His Excellency, L J Farwell

I have the honor to inform you that the selections of Swamp Lands, returned to this office by your predecessor, are in such shape that I cannot otherwise pay any attention to them unaccompanied as they are with instructions from the General Land Office I cannot refuse to plat entries upon my own responsibility any of these lands The only practicable mode of arriving at the quantity properly holden by the selections will be to send the township plats received at the office of the Surveyor General to the local offices and have marked by the Register what portions of the original returns of the Swamp Lands were sold previous to the grant, and before the selections of the state authorities The act granting the land directs the Secretary of the Interior to furnish the states with the necessary plats therefore the amount paid to the Surveyor General will be an improper charge of the state against the general government It will require more time on the part of this office than can be conveniently spared to perfect the list of selections of swamp lands, if it is deferred until the commencement of the busy season Your early attention to the subject will greatly oblige yours,

Very Respectfully

Rail Road Bonds for Banking.

The following communication from Moses M Strong of Iowa County, illustrating and enforcing the opinion recently advanced by him, that Rail Road bonds might be safely used, to a certain extent as a basis for Bank issues, is published in the Madison *Democrat* of the 2d instant The idea is a novel one, and Mr Strong's arguments in support of it are ingenious and forcible We commend the subject to the dispassionate consideration of our readers, in and out of the Legislature

Mr Brown *Sir*—In your Daily of the 27th ultimo giving an edited version of my remarks the present evening addressed to the meeting of the surviving members of the Convention that formed the first Constitution after saying very correctly that I then made the suggestion whether a system of banking could not be devised by which the people might be enabled so as to aid works of internal improvement you represent me as having suggested the question whether such encouragement could not be extended to them (works of internal improvement) by allowing the *stock* of safe companies upon works completed or in the course of completion to form a portion of bank securities on which to issue bills making up the balance of securities in United States or solvent State stocks"—This version of my remarks I observe is also inserted in your weekly edition and I have noticed it copied in some papers in other parts of the state The errors you have fallen into in representing me as harboring the idea of making Rail Road *stocks* the basis for banking though to the casual reader it may appear slight, I deem of sufficient importance to require that I should attempt to write out from recollection that portion of my remarks which related to this subject. This I cannot do with exactness after the lapse of nearly a week especially as no note that I am aware of was taken of them, but I can give the substance

I said that I voted "No Banks" but a large majority voted "Banks" at the late election and by that vote the power was given to the Legislature to charter Banks or pass a General banking Law but it does not follow that the Legislature must exercise the power and if I was a member I would not I would vote for no bank charter, nor would I vote for any general banking law But I presume that few agree with me, and I have no doubt that a large majority of the members of each branch feel themselves instructed to exercise in some manner the power upon this subject which is now conferred upon them And here arises the question in my mind, what, if I were a member of the Legislature, would be my course of action on this subject and what should be the course of others who think with me, and especially the members of the old Convention who acted with me in relation to banks I look upon banking in this State at this time in any form which it can be made to assume as in and of itself an unmitigated evil and that all its consequences and results so far as they relate to finance and currency will be disastrous and bitter at the same time I am of the opinion that by pursuing the wisest policy that circumstances, and the present state of public sentiment—mistaken in error, as I believe it to be—will admit of and that *some good* can be made to result from this great evil that which we are ordered to be cursed with a brood and that the currency be made to aid in extending to us the blessings of Railroads

It was the theory of the old Constitution that banks and banking should be discouraged—prohibited while internal improvements should be encouraged—promoted This is still my theory, and I still support it and if it would do any good I would advocate the theory of the old constitution I am an anti-bank man, and an internal improvement man But we must look at things as they are and make the best of them The anti-bank theory of the old Constitution has been repudiated by the people and the bank theory adopted and although we may not acquiesce in the verdict of the people yet we must acquiesce in the *fact* But no such verdict has been rendered in relation to the theory of the old constitution of encouraging internal improvements It is the theory of the new constitution has been the theory of every State legislature as witnessed in the numerous railroad and plank road charters [illegible] and by the aid annually rendered to the Fox and Wisconsin rivers Improvement and is the theory of the people The practical inquiry now is how can this theory be carried out in practice? How can a general banking law be framed so as to aid in encouraging internal improvement without hazarding the security of the people? I proceed to give my answer to this question And I wish it distinctly understood that I am alone responsible for the idea on which it is based and that I have no other end or aim in advancing it than to lend a helping hand in promoting internal improvements and particularly railroad improvements in the different parts of the state and especially in the western part of the state where I think their early construction is so important to the growth and prosperity of that region, if not to its existence

I express the opinion, in the first place that a bank which issues its notes and based dollar for dollar on United States stocks cannot live in this State That it cannot make profits enough to afford to go into and continue in the business To illustrate take a bank on such a basis in the most flourishing village in the State as an example like Madison if you please—desirous of issuing notes to the amount of $100 000 If the stockholders live in the State they must send out of the State to buy their $100 000 of U S stocks at a premium or its equivalent $117,000 For banking house engraving stationery &c say, $3000 Specie lying dead in the vaults to redeem the bills with when presented would depend on the amount of confidence they had the capital would be made up of specie and confidence the more confidence they had the less specie they would want and *vice versa*, but say confidence $70 000 and specie $30,000

This result would give to the bank a dead capital of $150 000

Now what would be their profits	
Interest on U S Stocks say	$6 000
Interest on $100,000 of discounted paper	$7 000
Profits made by dealing in exchange say	2 000
Total income,	$15 000
From this deduct salary of President Cashier Tellers Clerks &c, and all incidental expenses say	$5,000
Taxes 1½ per cent on $100 000	1,500
Loss by bad debts, say	500
Total	$7 000
Leaves a balance of net profits of	$8 000

which is only 5⅓ per cent per annum on $150 000 I think here it is clear that men having money either in or out of this State, will not invest it in banking founded upon any such stringent basis —The stocks of most of the States are slightly and only slightly more favorable to the person desirous of banking I would suggest that a law can be framed requiring any association desirous of engaging in the business of banking and of having bank notes issued to them registered and countersigned by the Secretary of State for the purpose of being put in circulation as money to deposit with the Secretary of State United States stock to the amount of one quarter of the notes issued to them and par State stocks to the amount of one quarter and the other half to be in *bonds* (not *stock*) of any railroad company in this State to a limited amount say not exceeding $10 000 per mile with interest payable semi-annually at a rate not less than seven per cent which shall have actually constructed, equipped and put in operation a certain extent of railroad not less than fifty or twenty miles which bonds should be secured both principal and every *coupon* for interest by a first mortgage on the road and whenever an additional section of such road should be completed and in operation a new issue of bonds could be made secure by a mortgage upon such additional section Would these bonds when thus deposited with the Secretary of State, be security to the holders of bills for their redemption?

The proper answer to this question depends entirely upon whether the road would pay enough to enable the company to meet the interest on the bonds and ultimately to pay the principal How much would that interest be? On fifty miles of road the mortgage bonds at $10 000 per mile would be $500 000 the annual interest on that at seven per cent would be $35 000 a year, or less than $3 000 a month Is there any probability that any rail road will be built in this state to the building of which the stockholders must contribute one-third or one half—say $5 000 or $10 000 a mile from their own means that will not be able to pay an income over all expenses of $3 000 a month for fifty miles of road or in that proportion for a longer or shorter one? I think not and I think it would be entirely safe to estimate the income of almost any road which has any prospect of being built at four times that sum I conclude then that such Rail Road bonds forming half the basis of banking would be as safe as, yea safer than any other practical basis which any capitalist desirous of banking in this State can afford to furnish

I will not dwell upon the advantage which the adoption of such a basis even to the extent I have proposed would be to Rail Road enterprises in the State It will be readily observed that it would at once create such a demand for that class of Rail Road securities that it would enable every Company in the State that has in contemplation the construction of Rail Roads between such points, that the business of the road will warrant the expectation of fair dividends to secure the early construction of their roads on terms entirely within their means It is well known that experienced contractors, possessing an extensive knowledge of Rail Road construction, with ample means and credit, with the necessary implements on hand for doing the work advantageously, expeditiously and economically, can construct roads very much cheaper than can small contractors not possessing such facilities, and I feel authorized to say that any company, having a favorable route for a road, with a reasonable prospect of doing a business that will pay fair dividends can by offering to such contractors $10,000 a mile in bonds which the laws of State will enable them to sell, to be used as a basis for banking and by paying the balance of the cost of building and equipping the road secure the early construction and equipment of its roads I do therefore, most fervently hope and trust, that if we are obliged to submit to an infliction of the curse of banking, that we may at least get some compensation in having secured to us the blessings of an easy access to market

Catharine N Forrest vs Edwin Forrest—Edwin Forrest vs Catharine N Forrest

SUPREME COURT—Before Judge Oakley

Thirty-third day—Monday, Jan 26

At 10 o'clock this morning his Honor Judge Oakley called the Court to order Mrs Forrest was present looking rather pale and anxious—She came in with Mr O'Conor Mr Forrest was present as usual

The crowd was very large several hundreds being gathered about the door, and all were very much excited It was with great difficulty that the officers could preserve a due degree of order

Upon the question whether they had agreed upon their verdict Mr Meeks Foreman of the Jury said "We have," and handed to the Judge a sealed packet

Mr Van Buren asked a poll of the Jury

The Clerk then read the verdict as follows

First Has or has not the defendant, Edwin Forrest since his marriage with the plaintiff Catharine N Forrest committed adultery, as in complaint charged?

Answer—He has

Second Were or were not the said plaintiff and defendant both inhabitants of this State at the time of the commission of such adultery by said defendant?

Answer—They were

Third Was or was not such adultery committed by said defendant within this State?

Answer—It was

Fourth Was or was not the said defendant a resident of the State of New York, at the time of the commencement of this action?

Answer—He was.

Fifth Has or has not the said plaintiff committed adultery as alleged against her in the answer in this action?

Answer—She has not

Sixth Was or was not the plaintiff a resident and inhabitant of this State at the time of the commencement of this action?

Answer—She was

Seventh Was or was not the plaintiff an actual inhabitant of this State at the time of the commission of such adultery by the defendant within this State and also at the commencement of this action?

Answer—She was

Eighth What amount of alimony ought to be allowed annually to the said plaintiff?

Answer Three Thousand Dollars

Jan 21 1852

Upon the application of Mr Van Buren, a poll of the jury was ordered when each man answered that the above was his verdict so that the verdict as recorded was the unanimous vote of the Jury

When the answer to the fifth section was read a spontaneous burst of applause shook the room It was, however, promptly suppressed by the Judge and the officers There was also some applause when the alimony was mentioned

Immediately after the interpellation of the Jury Mrs Forrest left the Court She appeared for the first time, to be quite overpowered Mr Forrest remained entirely passive, betraying no emotion whatever

At the close the judge said "Nothing now remains Mr Van Buren but to pay the Jurors their shilling," which remark excited a shout of laughter

The Court then adjourned

A large crowd of people, amounting to several hundreds, had gathered around the outer door, and when the verdict was announced to them they gave three hearty cheers

Thus ended this important and tediously-extended trial It commenced de facto on the 16th of December and ended on the 26th of January having occupied the Court for forty-one days, 31 of which the Court was in session an average of 5 hours per day —*N Y Tribune*

Thousands are dying whose lives might be saved by the timely use of Wistar's Balsam of Wild Cherry A few weeks, a few days, may make a total difference in the progress of consumptive symptoms
The chances of success increase greatly with the earliness of treatment Although in cases, seemingly desperate, Wistar's Balsam has performed cures that are seemingly miraculous, still it is advisable to take the Balsam on the appearance of the first symptoms.
CONSUMPTION, of all diseases, is the one that should receive early treatment Every hour of delay may make the case more difficult In the war between Disease and Nature, the sooner we assist Nature, the more certainly will she win the victory If we wait until Disease has broken the constitution, our aid may come too late for service

The Fun of Traveling "By Rail."—The Rochester American states that during all of the week before last, the Erie Railroad trains between Dunkirk and Elmira were lost, and none succeeded in getting through. Finally on Monday of last week, they came slowly out of the polar snows that had overwhelmed them, and made their appearance on their "native heath" at Elmira, a succession of trains drawn by six locomotives and carrying 600 passengers. They went on to Oswego for refreshments, and settled down upon that village like the locusts upon Egypt, devouring everything that came in their way, and with the insatiate Oliver, asking "for more."

Fire.—On the night of the 27th ult., the house of Luther R. Sears, Caledonia, in this county, was destroyed by fire. Mr. Sears lost most of his furniture. House insured for $225 in Washington County Mutual Insurance Company.—No insurance on furniture. Loss $800.—*Racine Com. Adv.*

☞ Fears are entertained that there will be another "jam" in our harbor this winter. On Saturday the river rose about two feet. Every thing is in readiness to slip cable and let slide in case of such a catastrophe.—*Chicago Adv.*

The Presidential Election takes place this year. The movements of both the great parties, the Conventions, the nominations, and the canvass, will engage to an unusual degree the attention and the feelings of the country.

The [illegible] and the speeches of the Hungarian [illegible], and the approaching [illegible] of a mighty [illegible] in which all the nations of the European Continent will be involved, either on the side of despotism or of Liberty, will be subjects of constant and eager interest.

The movements preliminary to this great convulsion, the intrigues of Russian diplomacy, the spasms of Austrian Despotism, French Revolutions, the outrages of Italian [illegible] on this side the Ocean, Mexican Insurrections, California Gold Discoveries, South American Civil Wars, will add to the general sum of important events which will distinguish the year 1852.

In addition to the above named features, we shall regularly publish the Letters of Bayard Taylor, one of the Editors of The Tribune, who is now exploring the [illegible] and mysterious regions of Central Africa, and before his return, will visit the famous Oriental cities of Damascus and Bagdad, and examine the ruins of ancient Nineveh.

Another Scientific Wonder!

Dr. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!

PEPSIN

THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of Pepsin, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Pepsin is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analagous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. 'In all cases,' he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr. Houghton's PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ Observe this.—Every bottle of the genuine Pepsin bears the written signature of J. S. Houghton, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

WISTAR'S

BALSAM OF WILD CHERRY,

THE BEST REMEDY EVER KNOWN

To MAN, for Coughs, Asthma, Colds, Croup, Bronchitis, Influenza, Bleeding of the Lungs, Difficulty of Breathing, Liver Affections, Pain or Weakness of the Breast or Side, First Stages of Consumption, &c.

In short, this Balsam is peculiarly adapted to every disease of the Lungs and Liver, which is produced in our ever-varying climate.

WILD CHERRY has long been known to possess important medicinal properties. This fact is familiar to every matron in our land, and physicians often prescribe it in different forms for a variety of complaints. Tar, also, has been equally noted for its virtues; and some physicians, whose names are familiar to the whole country, have gone so far as to declare that even CONSUMPTION could be cured by that alone. In other hands, again, it was nearly valueless—owing, no doubt, to their ignorance in preparing and administering it—a difficulty now entirely obviated by patient experiment and long experience.

The extraordinary medicinal powers of these two substances are now, for the first time, combined and embodied in DR. WISTAR'S BALSAM OF WILD CHERRY. By a nice chemical process, everything deleterious or useless is rejected, so that what remains is the most extraordinary and truly efficacious remedy for all kinds of pulmonary and liver diseases ever known to man. To convince all unbelievers that our theory is really true, we refer to a few cases of cures performed by this wonderful medicine:

Pleasant Ridge, Ham'n Co., O., }
September 27, 1850. }

J. D. Park—Dear Sir:—I take the liberty of advising you of the benefit I have derived from the use of Dr. Wistar's Balsam of Wild Cherry. I was prostrated by that terrible scourge, Consumption, in May last. The attack was truly horrifying to me, for five of our family, (brothers and sisters,) had died of Consumption. I was afflicted with nearly all the worst features of the disease. I had a distressed cough, and expectorated a great deal of blood, hectic fever, severe pains in the side and chest, cold chills, alternating with flushes of heat and copious night sweats.

I was under the care of a skillful physician, from the time I was taken sick until about six weeks since, being then about helpless, and my friends considered my case hopeless, or at least beyond our Physician's skill, and advised the use of Wistar's Balsam of Wild Cherry. Without my knowledge, my father procured it, and commenced administering it to me, and from the first day I commenced taking it, my health improved, and in two week from the time I commenced using it, I was able to be out and oversee my business, and labor, which I still continue to do. I have taken four bottles of the medicine, and now consider myself perfectly well. JEREMIAH ISCRIGG.

Another astonishing Cure!

E. Kalb, a highly respectable merchant of Rushville, Fairfield county, Ohio, sent us the following voluntary tribute to

"DR. WISTAR'S BALSAM OF WILD CHERRY."

Rushville, Fairfield Co, O, April 6, 1851.

Mr. J. D. Park—Dear Sir:—I wish to state to you that my daughter, Amanda, aged sixteen years, had, about a year since, a very severe attack of measles, which reduced her very much, and left her with a racking cough. I employed all of the physicians, within our reach for the purpose of removing her cough, but without success. She appeared to be sinking into a decline, with every symptom of consumption.

I then tried Dr. "Rogers' Liverwort and Tar." But this aggravated her cough, and gave her symptoms of a still more malignant character. I was now most seriously alarmed, and it was with trembling fear that I from day to day, saw the progress of that insatiable disease, consumption. I really despaired of my daughter's recovery. But I providentially saw the certificate of Jonathan Coulson, whose daughter, "Sarah Jane," was cured of consumption by "Wistar's Balsam of Wild Cherry;" this created a faint hope that it might help my daughter, and I immediately commenced using it, and it almost instantly gave relief; her health was improved from the first bottle, and by the use of two bottles of "Wistar's Balsam of Wild Cherry," she was restored to perfect health, and she is not at all predisposed to a cough.

I will say to all that are afflicted with any disease tending to consumption, *do not despair*, for Dr. Wistar's Balsam of Wild Cherry will cure you, if you will but try it.

E. KALB.

The genuine Wistar's Balsam of Wild Cherry has a fac simile of the signature of Henry Wistar, M. D. Philadelphia, and "Sanford & Park" on a finely executed steel engraved wrapper. No other can be genuine.

Troy Fire Insurance Company,
TROY, WALWORTH COUNTY, WIS.
CAPITAL $100,000.

The Directors feel grateful to the public for having thus early manifested their approval of and confidence in this Company. After having been in operation ten months, we are able to report as follows:

Whole number of Policies issued,	969
Whole amount of Property insured,	$623,651 00
Whole amount of Cash premium	5214 37
Whole amount of losses allowed and paid	51 27
Balance of Cash Premium on hand	4813 10

IT is gratifying to the Directors to state to the members of this Company that the business has more than met the expectation and is rapidly increasing. This unparalleled success in the commencement, and increase of business show the [illegible] and management meets with the approval of the public.

Its Charter and By Laws are free from objections, and provide that the risks shall be divided into two distinct departments, and the premium notes in one shall not be liable for losses in the other. The only risks taken in the Farmers Department are on farm property detached dwellings, country churches, school houses, tailors, shoemakers and [illegible]. No hazardous risks will be taken in either department for more than $600 in one risk or in any one [illegible].

It comprises both the advantage of the Stock and Mutual plan. Any person insuring may pay one and [illegible] the interest on a cash premium in full without a premium note. Steam may be used for or engaged out [illegible] [illegible] to protect [illegible] from dwelling and such [illegible] made so as not to increase the hazard, without notice to the company. The Company will be responsible for the correctness of surveys taken by their Agents. Insurance will take effect on the day the application is made. The Company pays in case of fire the full amount of damage not exceeding the amount insured, and all matters of difference will be settled by arbitration in the county where the loss occurs.

The rates charged by this company, though low are based upon the actual results of insuring for the past twelve years, and are found to be sufficient, with prudent management, to pay all losses and expenses without exceeding [illegible] of the premium notes; thus the rates on exposed dwellings and farm property are a premium note of one per cent., and a cash premium of [illegible] cents on each $100 for five years.

In publishing our safe, cheap and popular plan of Insurance, we deem it due to ourselves and the public to state a few existing facts with the Washington and Montgomery [illegible].

The Washington County Mutual commenced in 1846 by collecting three cents on $100, in 1848 they first discovered that this was insufficient to pay losses, and raised to 33 cents, and now are collecting 50 cents on each $100, the result of which is, by their report, Jan. 1, 1850, $5000 in the county and outstanding risks on which they will probably lose two hundred thousand [illegible] and the actual debt 1851 [illegible].

The Montgomery County Mutual is another example of [illegible]. They have been in operation [illegible] [illegible] Washington [illegible] report [illegible] what the Washington [illegible] to Troy reported to the Comptroller in 1850, that their losses and other expenses twenty nine hundred thousand dollars [illegible] [illegible] and forty four thousand dollars [illegible] and some three millions [illegible] on which they will probably lose [illegible] thousand dollars more making the actual debt [illegible] [illegible] thousand [illegible].

The premiums received by these two companies on what they insure in future will only pay losses on the [illegible] thus insure with them [illegible] not [illegible] these [illegible] which must be raised by tax. These companies are unpopular in New York and are compelled to work in the Valley of the Mississippi where they are not so well known [illegible] Arch Bishop and Lesser Wilcox have published heretofore their honest belief that no tax will ever be necessary, but the figures are the [illegible].

Since the above report the Montgomery have raised a tax of [illegible].

[illegible] the public [illegible] of these three companies [illegible] Washington and Montgomery [illegible] the Troy with [illegible] to pay all losses and expenses [illegible] tax.

STATE FAIR.
CRANE'S PATENT SOAP took the First Premium at the State Fair at Janesville, also at the State Fair of [illegible] State of New York, and at the Great Fair of the American Institute. Of course it is the BEST soap. If any are skeptical, let them read the following—the names of which must be admitted [illegible] that it is the best for themselves, and if it don't succeed, they will not pay for it.

We have used Crane's Patent Soap in our families for [illegible] and pronounce it [illegible] to any [illegible] [illegible]. We do not discover that it injures cloth in the least. It is the cheapest soap in use. We should not be willing to do without it.

PATENT MEDICINES,

Dr. Trasks Magnetic Ointment,
CAN now be obtained in this city of S. JOHNSON Jr and H. Bosworth & Sons, and of one or more Druggists or Merchants in most of the cities or villages of the West. Its great and increasing popularity in this region is mainly attributable to its controlling power over inflammation and nervous irritation. From the best of evidence, and on possession from Physicians, of the best standing, who have prescribed it, and from others who have been relieved by it, we are satisfied that it will cure in some cases where no other known remedy will do it. This it has appeared to do in numerous cases of Chronic Sore Eyes and partial blindness where the most eminent medical treatment had failed. For inflammatory Rheumatism, Burns, Frozen, Ulcerated sores, Salt Rheum, or for relief from results of [illegible] of the pores of the skin by colds or fevers, a thorough trial will establish its claims to the confidence of the public. Our agents are supplied with circulars containing interesting details of its happy effects in many extreme cases.

JAUNDICE, DYSPEPSIA, CHRONIC OR NERVOUS DEBILITY, DISEASE OF THE KIDNEYS,
AND
all diseases arising from a Disordered Liver or Stomach such as Constipation, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots or Webs before the sight, Fever and Dull Pain in the Head, DEFICIENCY OF PERSPIRATION, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c., Sudden flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and great Depression of Spirits, CAN BE EFFECTUALLY CURED BY DR. HOOFLAND'S CELEBRATED GERMAN
BITTERS,
Prepared by Doct. C. M. Jackson,
AT THE GERMAN MEDICINE STORE,
120 Arch st., Philadelphia.

Their power over the above diseases is not excelled, if equalled by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

READ AND BE CONVINCED.
[From the Boston Bee.]

The Editor said Dec 3d: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY.
One of the best literary papers published, said, August 25: "DR. HOOFLAND'S GERMAN BITTERS, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 21, says:—"A Medicine"—We speak knowingly of Dr. Hoofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility and Dyspepsia, it has been found invaluable, effecting cures and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

LOOK WELL TO THE MARKS OF THE GENUINE.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

GREAT DISCOVERY.
JOHNSON'S CHEMICAL
HAIR INVIGORATOR,
To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually
SCURF OR DANDRUFF.
Prepared only by S. JOHNSON, 151 E. Water-st. FOR THE TOILET,

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the hair to curl, and keeps it so, will positively change the harshest hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the latest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 24 3m

Ketchum & Comstock,
HATTERS,
202 Main Street, Buffalo.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"
from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away, as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head, and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4 25, surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.

WOODWORTH'S PLANING MACHINES,
in the county of Milwaukee, are now prepared to furnish, from their own stock the best kinds of planed

These machines are now used in all parts of the United States, and are admitted by general consent to be superior to all others in the quality of the work executed by them. Their Steam Mill is on West Water street, Fourth Ward, near the Rail Road Depot, where they invite their friends to call and see the Machines in operation and inspect the superior quality of the work done by them.

They also keep at their Lumber Yards on Erie street, (old stand) opposite the Red Warehouse, a full assortment of Lumber.

Sawed Timber, of all sizes and lengths, Long Joist and Scantling, Planed Lumber of all kinds, a superior article of sawed Shingles, Pickets, and Cedar Posts.

The quality of their Clear Lumber this season is equal to any to be found in the City, and they would invite the attention of Carpenters and Builders to an inspection of it. They would also give notice that they are the authorized agents for the sale of Rights (which all persons are cautioned against using without right, as such infringements will be legally noticed) to use the Woodworth Planing Machine for the State of Wisconsin.
